> What we aim for

- Future-oriented infrastructure
- Effective environmental protection
- Efficient freight transport
- Interconnected and safe mobility
- International competitiveness

> **European Topics**

- Develop Infrastructure – integrate the transport system
- Reduce red tape – minimise regulation
- Expand harmonisation – promote liberalisation
- Provide for sustainability – protect resources
- Support key technologies – strengthen Europe's economy

Our Activities

> Interest Group

- We tie up the interests of the transport economy vis-à-vis politics, media and the public – in Berlin and Brussels

> Network

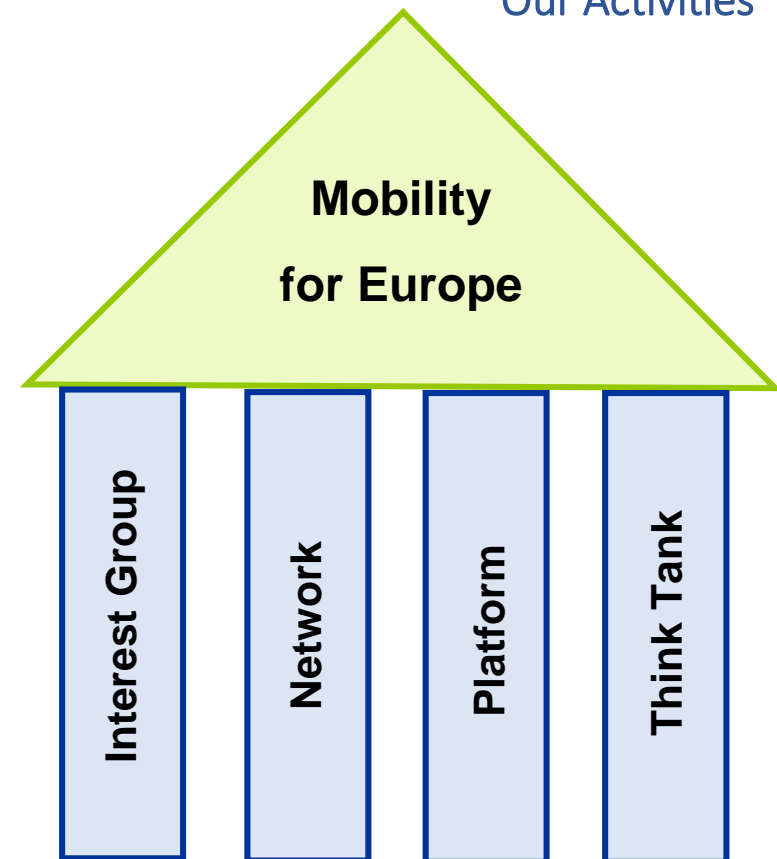

- We bring together national and international decision makers from politics, economy and society

> Platform

- We host meetings and discussions and we generate dialogue

> Think Tank

- We work out positions and strategies

Interest group

> Events

- To our members we offer more than 30 parliamentary evenings, lunch debates, symposia and meetings of steering committees and working groups per year
- We provide professional exchange and the opportunity for networking between enterprise representatives, politicians, scientists and experts in Berlin and Brussels

> Enable exchange

- We foster the dialogue on transport policy with national and European decision makers
- We focus on the German Federal Government and Parliament, the Federal States, the European Commission and Parliament
